Technical Data - Stylestone Overlays

Uses

Stylestone overlays are exceptionally versatile and are suitable for countless applications, including commercial and residential flooring, countertops, backsplashes, shower and tub surrounds, fire places, decks, patios, garages, driveways, and wall and ceiling features, just to name a few.

Benefits

- Easy to clean and maintain
- Exceptionally durable
- Cost efficient
- Unlimited design possibilities
- Aesthetically pleasing
- Seamless
- Hygienic

Environmental

Stylestone overlays are based on a water based acrylic styrene emulsion. They contain no VOC's, and are non-hazardous to the environment. Environmental and health considerations are controlled during manufacture and application of the product by qualified staff who are fully trained and experienced.

Technical Info

Characteristic

Result

Flexural strength

800 psi (ASTM C293)

Compressive strength

6880 psi after 28 days (ASTM C109M-13)

Tensile Strength

610 psi after 28 days (ASTM C1583)

Bond Strength

770 psi on prepared concrete (ASTM D7234)
